

VRIS UPDATE

**VRIS Home Page
Effective 2/26/09
Number 206**

SUMMARY OF UPDATES

The VRIS home page has undergone a few minor changes. Following is a list of recent changes:

1. A “What’s New at VR” section has been added at the top of the page. This section will list an ever revolving and changing set of links of the various new things that are happening within the agency.
2. The Agency News section is still present but has been moved down to the beginning of the first row. Remember, the different sections are all in alphabetical order.
3. The Printed and Marketing Materials and Multi Media Materials sections have been combined into one section, simply named Materials.
4. The Google Search Box has been eliminated, but you are still able to search Google from the top of the browser, just remember that the Google search at the top of the browser is not a safe search.
5. New Staff Training has been renamed; it is now named Staff Training and also includes links to several different training opportunities besides New Staff Training.
6. A new link has been added under the Members Only section to include the new Outlook Webmail option.
7. Committees, Contacts, & Directories now have their own individual sections to incorporate the new contact and leadership listings.

VRIS POSTING

Home Page as described above

TEAM COMMUNICATION

Office Directors should review with their teams.
