

VRIS UPDATE

There's a Job In Your Future Transition Booklet Effective 09/02/09 Number 236

SUMMARY OF UPDATES

We needed to order additional copies of *There's a Job in Your Future* Transition Booklets. Staff had made suggestions for changes so the following changes have been implemented in this printing.

- Pages 8 and 9 (Discovery Activity 2-Work Interest) were revised to allow students to better understand the NDE Career Education Model. It also provides a more simplistic approach to identifying interests within career fields and career clusters.
- On page 12 (Discovery Activity 5-Work Considerations) the days and hours a student wants to work were removed.
- Page 14 (Discovery Activity 6-Training) a category was added at the bottom of the page for the type of training the students feels would be most effective for them to complete.
- On page 20 (Discovery Activity 9-Contact and References) the student's contact information was added. The family information was also changed to allow for a list of family members by name, relationship and age. The dates of each family member's birth and parent's employer were eliminated.
- Page 24 (Step 2-Pick the Job You Want) the NCIS username and password was changed to reflect the 2009/2010 current username and password.
- Page 28 (Step 3-Make Sure this Job is Right for You) was revised to consolidate questions as it relates to the student's job goal.
- Pictures were removed from the front and back covers.

VRIS POSTING

The booklet cover was posted to VRIS: Printed and Marketing Materials: Case Service Forms and Worksheets: [There's a Job in Your Future](#)

FORMS REVISED

Sandy Ham will mail a supply of There's a Job in Your Future booklets to each office. Offices can use their current transition booklets prior to implementing this recently printed version.

TEAM COMMUNICATION

Office Directors should discuss this VRIS Update at their next Team Meeting.
