

VRIS UPDATE

Transition Program – SSN Requirement Change September 29, 2009 Number 240

SUMMARY OF UPDATES

Many schools are no longer gathering the social security number of students as they are all required to use the NDE Student ID number for identification. The school has been the back up for collecting the SSN when parents/students have not recorded on the Transition Consent. We have now removed the requirement of the SSN from the Data Entry screen for Transition in QUEST.

The Transition Consent will be changed at the next printing, continue to use the supply you have. If you receive a SSN you can enter it on the Basic Info Screen once the TR record is created. If the TR student chooses to complete an application for the Employment Program the Social Security Number will be required.

VRIS POSTING

None

FORMS REVISED

None at this time.
