

VRIS UPDATE

**Revisions to the Discover the Job That Works for You Booklet and
IPE VR Provided Services Form
July 24, 2014
Number 395**

SUMMARY OF UPDATES

The Discover the Job That Works for You Booklet has been revised to reflect the following.

Step 4 – Pages 35 and 36 has been revised to align with the federal reporting requirements. They are also listed in alphabetical order and are consistent with the Career Planning Preferences document that is an alternative to using the booklet.

Step 5 – Page 44 – VR Provided Services. An additional service has been added under the Disability Awareness/Personal Adjustment category. The service is *Receive Assistance to follow through with VR and Community Services*. Staff should add a counseling service to the IPE from the VR Provided Services form. Often staff felt there was not a service to describe the counseling service being provided by VR staff. The service for *Receive Assistance to follow through with VR and Community Services* was added as another option to use as a VR counseling service.

Step 5 – Page 44 – VR Provided Services. The VR Provided Rehabilitation Engineering category has been deleted since ATP provides the service. When ATP provides the service it falls under VR Community Services-Rehabilitation Technology.

FORMS REVISED

[Discover the Job That Works for You Booklet](#)

[IPE Provided Service - English](#)

[IPE Provided Service - Spanish](#)

Staff can use their current supply of booklets and forms before using the revised documents.

TEAM COMMUNICATION
